

eCATS MOC – Jun 2026

The 36 enhancements listed below will be incorporated into the eCATS production environment in June 2026. Please refer to the table below for a summary of each enhancement.

ID	ID	Title	Who	Benefits	Keep Y/N
10	1	Restore CAR from Archive	All Users	Allows users to retrieve and produce in a readable format records that have been archived.	Y
11	2	List of Admin Users	All users	Provides user with a quick reference to identify Admins of different levels. Site, Enterprise, and SBU	Y
14	3	Additional questions requested by customer.	Customer Quality	Customer requested enhancement to document more details around the updating of FMEA's, PMAP's, and Control Plans.	Y
17	4	SPOC Assignment based on CAR type and site	All users	Allows sites to set a default SPOC for regular CARs and a different default SPOC for RMRAs. Also, gives more control to the sites to identify who their default SPOCS will be.	Y
20	5	Automatically expand text fields on sub action line items to fit text	All users	Text fields in the actions and response fields will auto expand with the typed text, rather than having to drag the box larger or scroll in the box to see all the text	Y
22	6	Supplier NOE - SDC CAR type - Mistake Proof Site selection	Suppliers, Site users	Mistake proofing of submission of Supplier NOE's to the correct Honeywell site. (lock down site/SPOC logic – preventing other things from happening)	Y
25	7	Reject and close function change	All users	Corrects an error in a previously released enhancement	Y
26	8	General Search Query Expansion	All users	Allows users to use the quick search on the eCATS dashboard to now find CARS by supplier DUNS in addition to the existing fields of Part number • Serial number • Customer Experience • Finding Text • Requirement text.	Y
27	9	Mandatory fields	All users	Mistake proofing of Why Missed fields making them mandatory when a response is required.	Y
28	10	Check if supplier has active users at assignment	Internal users	Notifies initiator when the supplier they are issuing the CAR to has no active users that will be notified of the CAR.	Y
30	11	Add Comments function to RMRA CAR Type	All users	Adds Add/View Comments function to the RMRA CAR type.	Y
31	12	Add Design Authority Flag to Site Table	All users	Limits which sites can receive RMRA's to sites that hold MRB authority.	Y
32	13	Add value stream to Supplier Profile	Supplier Quality	Aligns suppliers in eCATS to their assigned support groups in the SQE organization	Y
33	14	Attachment Validation Move	All users	Users will be notified of which required attachments are missing when they try to submit the response instead of this being validated at the end of the process	Y
34	15	Change site code length	All users	Allows new site codes to be created using 4 characters instead of just 3.	Y
35	16	ECATS advanced search change	All users	Restricts advanced search across SBG's	Y

36	17	Error proof Supplier CAR Selection on Response Page	All users	Mistake proofs addition of related supplier CAR to parent CAR when it is identified as supplier caused. This will require the supplier CAR to be initiated before it can be entered on the Respond to CAR page.	Y
39	18	Add Certification Authority to Detected By field	Network Auditors	Allows identification of CARs where the finding was detected by a Certification Authority.	Y
40	19	Extend application user idle time to 2 hours	All users	Extends the timeout feature to allow longer idle time before the user is automatically logged out of the application	Y
42	20	Add Shipment Tracking Number field	All users	Adds mandatory shipment tracking number to supplier CAR types that must be entered before the CAR can be moved out of Holding for Hardware.	Y
43	21	Quickly identify using the data which RMRA CARs would have tooling	MRB Users	Gives the MRB engineer the ability to override the supplier provided root cause primarily to identify when tooling is the primary reason for the RMRA.	N
44	22	Increase attachment file size limit	All users	Increases the size of files that can be attached to CARs to 10MB	Y
46	23	Prevent Dash CAR from skipping Containment phase	All users	Corrects an issue where it was not possible to create a dash CAR from an existing CAR that was in Containment status and another issue where dash CARs were created and skipping the Containment status.	Y
47	24	Prevent response sub action promise dates from being before Lead Approval Due date	All users	Mistake proofs response action plan entries so that action due dates must be later than the Lead approval date.	Y
48	25	Add Team information to print out of Full Detail form	All users	Corrects an issue where the last name of team members is not printed in the Full Detail form	Y
49	26	Have Supplier registration form remove dashes from DUNS field	All users	Mistake proofs supplier user registration so that DUNS numbers are submitted without dashes.	Y
50	27	Allow admin to search for supplier user with Snumber or Last name	Admin Users	Allows admin users to search for a supplier user across the application without having to know what DUNS they are associated with	Y
53	28	Add Business Type for CARs	All users	Provides an indicator to be able to identify CARS for OEM vs R&O	Y
57	29	Prevent CAR from being past due after CAR is coming from Holding For Hardware	All users	Prevents CARS from immediately going past due when they are removed from Holding for Hardware.	N
61	30	Adding Plant #s to owning sites in Reversal SPOC/ Owner Information area	Supplier Users	Gives supplier users more information to assist them in selecting the correct submit to site when initiating RMRA's and Reversals	Y
66	31	SCCE Responsibility	All users	Adds a method to indicate whether the CAR responsibility lies with Honeywell or the supplier. (SPOC dropdown)	Y
67	32	ECATS Full 8D report printing	All users	Provides an option that will print the 8D form and the content from all attachments into one pdf file resulting int reduced time when printing and submitting customer RCCA	Y
69	33	Add Comments Function to SDC CAR Type for NOE	All users	Add the Add/View Comments feature to Supplier NOE CAR type	Y

72	34	Clearwater Request #1 - "Submit To" field	All users	Allows both plant numbers to be visible to suppliers who are selecting the Clearwater site in an RMRA	Y
73	35	Clearwater Request #2 - Add QAE Manager approval fields	All users	Adds the ability to have an internal additional approval on an RMRA to support the RMRA process at the Clearwater site.	Y
74	36	Clearwater Request #3 - PO Field	Supplier Users	Adds Line to the description of the PO/Line/Contract No field on the RMRA CAR type and makes this field mandatory.	Y
